RUSS ARMY DRIVES ON TO LEMBERG.

After Capture of Halicz, General Korniloff Forces Austro-Germans to Keep Running.

Having broken the strong Austro-German line in the vicinity of Halicz, the Russians are pushing forward from Halicz toward Lemberg, the capital of Galicia, and from Stanslau, south of Halicz, westward toward the line of the Dniester.

After the capture of Halicz, on the front from Halicz to Zolotvin about thirty miles south, General Korniloff forced the Austro-Germans to continue their retreat. In their advance from Halicz the Russians forced the fleeing enemy across the Lomnica and occupied two towns on the western bank of the river. The next natural barrier is the River Stoka, about six miles west of Lomnica.

South west of Stanslau the Russians have reached the Posiecz-Lesivka-Karnacz line, the central point of which Lesivka is four miles west of the River Bystritsa. This line is about seven miles east of Kalusz, the nearest large town west of Stanslau and which is situated in a bend of the Stoka river. The extension of the Russian fighting line to Zolotvin brings the battleground into the foothills of the Carpathians.

J. W. Qualls, of Carthage, representing the Delco-Light Company, was in town on business this week, making arrangements for a free demonstration of their lighting system in moving pictures at the Gem Theatre, July 17.

WAR SPECULATION IN GRAIN ENDED

Action of Chicago Board of Trade in Fixing Maximum Corn Prices Said to Indicate This.

Chicago, July 11.—Traders tonight interpreted the action of the Chicago board of trade today in fixing a maximum price of \$1.28 for December and May Deliveries in corn as practically terminating grain speculation in the United States during the war.

When trading recently was restricted in wheat so as to forbid new deals in futures, the price for wheat fell nearly \$1 a bushel. Traders and speculators then turned their attention to corn. Prices advanced until finally the market value of a bushel of corn was almost equal to that of a bushel of wheat.

Traders declared the intensity of the struggle in the corn pit during the last month had surpassed all records. Notwithstanding favorable crop reports, corn continued to advance until today all records were broken.

DRAFT ARMY TO BE DRAWN NEXT WEEK

Postponement is Made Necessary by Slowness of Some States in Completing Organization of Their Exemption Boards.

Washington, July 11.—Postponement until next week of the drafting of numbers of men who will be called for examination for the national army seemed probable today when it became evident that states are not completing organization of their district exemption boards as rapidly as war department officials had hoped. Only twenty-one states have reported their organization complete, although in most others only a few districts are missing. The drawing will not be made until the lists for the country are complete.

A so-called revised census estimate for the entire country compiled on the basis of the draft registration will be used for determining apportionments. Each city council or state must furnish two-thirds of 1 per cent of its paper population, according to the new estimates, which were made for the purpose of equalizing the draft rather than to represent accurate population totals.

KINGS PRAIRIE

Mr. and Mrs. W. H. Fleming were in Aurora, Tuesday, visiting relatives. Ira and C. H. Jackson went to Lebanon last Thursday to attend the funeral of an uncle.

The Fourth passed off very quietly on the Prairie. Quite a number celebrated at Aurora, Springfield, Freistatt and Bethel. Others were in the harvest field.

Mrs. Fountain Jackson has returned home after an extended visit with her daughter, Mrs. W. R. Henderson near Purdy.

Marion Tate and little son, John D., went to Carthage Saturday.

ST. LOUIS LIVE STOCK MARKET SPECIAL REPORT

National Stock Yards, Ill., July 10.—To-Day's Receipts.

Cattle 5500

Hogs 13500

Sheep 3000

CATTLE—A material decrease in receipts this week has been a big benefit to trading conditions. While values cannot be quoted as high as yesterday, yet there has been a good strong undercurrent to the market each day, and sales have been readily effected at the prices. The chief strength, seemingly, has developed on butcher stuff. Although unforeseen conditions may alter the future outlook, yet at the present indications are that we have seen the low spot in the market.

HOGS—This market opened in a very unsatisfactory condition, early sales of good hogs being a quarter lower, while light hogs were 30 to 40c lower. At that time choice heavy hogs topped at \$15.65. At the close the market was very saggy, showing a decline of 40 to 50c on best hogs compared with yesterday, and 50 to 75c lower on pigs and light-weight stuff, with the following quotations prevailing:

Choice hogs 180 lbs. up \$15.15 to \$15.55; mixed hogs 160 lbs. up \$15.75 to \$15.15; 120 to 150 lbs. \$14 to \$14.25; lighter pigs \$13 to \$13.75; fat Southern pigs \$10 to \$12.50; best rough hogs \$14.25 to \$14.50, with half-fat roughs at 10 to \$12.

SHEEP—With a moderate supply of sheep the market was active and 15 to 25c higher on lambs, with fat sheep of all kinds selling steady. Choice lambs \$15.50 to \$15.75; medium lambs \$15 to \$15.50; cull lambs around \$11. Fat sheep \$8 to \$8.50; choppers \$6 to \$6.50; canners \$4 to \$4.50, and breeding ewes \$12 to \$15.

The Income of Farmers Swells Bank Deposits

Every year, when the farmers sell their produce, the volume of Bank deposits is greatly increased. Those farmers who reap the largest harvest should have the largest Bank Accounts. It often occurs, however, that a farmer who has smaller fields and proportionately smaller harvests has the most money in the Bank. Such a Farmer deposits a part or all of his income and his constant depositing and plans for saving show large results. The thrifty farmer should save his money, just as he does his hay and grains.
